Programme

(Last update: 19 September 2025)

The Scientific Conference will be held from Wednesday 22 October to Friday 24 October 2025. Several SIDE EVENTS have been organized open also to the general public: a series of opportunities for reflection on the changing climate, fostering ongoing dialogue between current scientific knowledge, the public, policymakers, and younger generations. Because the side events are open to the citizenship they will be held in Italian.

SIDE EVENT

The Cooling Solution | Photography Exhibition

The Cooling Solution is a photographic and scientific project that aims to show how people adapt to conditions of high temperature and humidity across geographies, cultures, and socioeconomic conditions in very different societies, in climate change context.

The project merges scientific findings with personal stories, showing images of inefficient cooling methods alongside new technologies developed in Brazil, India, Indonesia, and Italy.

Further info on the project: <https://www.sisclima.it/conferenza-annuale-2025/side-event-tcs/>

📍 Arco Catalano, Via Mercanti 67, Salerno SA

Vernissage: 4 October 2025 – 17.00 Arco Catalano

From 4 October to 2 November 2025

Mon: closed - Tue-Sun. 10.30-13.30 // 17.30-20.30

Free entrance

Day -1 | Tuesday 21 October 2025

Tue 21 Oct	SIDE EVENT (in Italian) 18:00 – 19:00 (CEST) - Clima da leggere	Pinacoteca di Salerno
-------------------------	--	-----------------------

CLIMA DA LEGGERE - Presentazione del volume:

La sfida climatica. Dalla scienza alla politica: ragioni per il cambiamento

Autore: Antonello Pasini – Fisico del clima, primo ricercatore CNR-IIA e divulgatore

Moderatore: Mariano Ragusa – Giornalista de “Il Mattino”

Abstract: La crisi climatica è un problema complesso e globale, che ci sfida in diversi modi. È una sfida scientifica e conoscitiva, perché richiede nuovi metodi per studiarla e una solida conoscenza dei processi in gioco su cui basare le nostre azioni, ma anche una sfida per la nostra visione del mondo, per il mondo della comunicazione e della politica. Da uno dei più autorevoli scienziati del clima italiani, il libro-manifesto che traccia il percorso per un cambiamento radicale del nostro modo di pensare e interagire con il mondo.

📍 Pinacoteca di Salerno, Via Mercanti 63, Salerno

L'evento è GRATUITO e aperto sia ai partecipanti della conferenza scientifica SISC che alla cittadinanza. Si chiede gentilmente di confermare la presenza compilando il modulo di iscrizione al singolo evento.

Day 1 | Wednesday 22 October 2025

Wed 22 Oct	10:00 – 11:00 (CEST) - Registration of participants Pick your badge!	Palazzo di Città Teatro Augusto Hall
Wed 22 Oct	11:00 – 11:30 (CEST) - Conference opening and welcome	Palazzo di Città Teatro Augusto

Paola MERCOGLIANO, SISC President and Fondazione CMCC

Vincenzo NAPOLI, Sindaco Salerno (**TBC**)

Massimiliano NATELLA, Assessore Politiche Ambientali del Comune di Salerno (**TBC**)

Fulvio BONAVITACOLA, Assessore Ambiente della Regione Campania (**TBC**)

Arturo IANELLI, Presidente della Commissione Ambiente e Cultura del Comune di Salerno

Wed 22 Oct	11:30 – 12:30 (CEST) – ANDREA RINALDO's Talk Water science on the move: Metastatistics, limits, retooling, invisible structures Chair: Monia Santini, Fondazione CMCC, Viterbo, Italy	Palazzo di Città Teatro Augusto
-------------------------	--	---------------------------------------

In this lecture I shall discuss a choice of recent advances in the domain of hydrology (in a somewhat broad sense) that in my view are relevant to the assigned theme of innovation in climate research for societal transformation. In this Lecture I shall discuss the implications of the rapidity of change that we observe extensively, which undermines a common tenet of hydrologic design—the stationarity of the relevant probability distributions -- introducing the to the field of metastatistics. This suggests serious limits of current engineering practice and the need to rethink reliable tools to define the design probabilities for floods and droughts. This also means that in the future we shall face forced, unwanted, societal transformations affecting economic structures, political organizations, legal practices, and the expressions of collective sensitivity and local traditions (the invisible structures).

Professor Andrea Rinaldo, engineer and hydrologist, holds a Degree in Hydraulic Engineering from the University of Padua (IT) where he graduated with the highest honours in 1978. In 1983, he obtained his PhD (Fluid Mechanics) at Purdue University (US). In 2014, he was awarded a PhD Honoris Causa by the Université du Québec-Laval & INRS (CA) and in 2024 the University of Trento (IT) awarded him the Degree Honoris Causa in Environmental Engineering.

In 1986 he became Full Professor of Hydraulic Constructions at the University of Trento (IT). From 1992 to 2002, he worked as research fellow and visiting Professor at the Massachusetts Institute of Technology, Cambridge, in the Department of Civil and Environmental Engineering; from 2004 to 2006, he was a visiting professor at Princeton University. In 2008, he also became Professor and Director at the Laboratory of Ecohydrology at the Federal Polytechnic School of Lausanne (EPFL) in Switzerland.

On March 22, 2023, the Royal Swedish Academy awarded him the Stockholm Water Prize (commonly known as the Nobel Prize for Water), given to “a Swedish or foreign person for his or her outstanding contribution to the protection of the environment in the broadest sense or for having written illuminatingly on this subject.” Prof. Rinaldo is the first Italian who has received this prestigious award.

Since August 2024, Prof. Rinaldo is also the President of the “Istituto Veneto di Scienze Lettere ed Arti”, in Venice. He joined the CMCC Foundation in March 2025 as a Senior Fellow at the ICR Institute of Climate Resilience

Wed 22 Oct	12:30 – 13:00 (CEST) – Moving to the first floor
-------------------------	--

SISC2025 INNOVATION IN CLIMATE RESEARCH FOR SOCIETAL TRANSFORMATION

SISC 13th Annual Conference - Salerno, 22-24 October 2025

Wed 22 Oct	13:00 – 14:00 (CEST) – Lunch	Palazzo di Città Sala del Confalone (1 st floor)
-------------------------	------------------------------	---

Wed 22 Oct	14: 00 – 15:00 (CEST) POSTER SESSION 1	Palazzo di Città Hallway (1 st floor)
-------------------------	--	--

At the intersection of Big data, HPC and AI for Climate Science

P1-1. A Bayesian Optimization-based approach to improve Oil Spill simulations

Marco DE CARLO, Fondazione CMCC, Lecce, Italy

Author(s): Gabriele Accarino, Marco M. De Carlo, Igor Atake, Donatello Elia, Anusha L. Dissanayake, Antonio Augusto Sepp Neves, Juan Peña Ibañez, Italo Epicoco, Paola Nassisi, Sandro Fiore, Giovanni Coppini

P1-2. A Hybrid Deep Learning and Geostatistical Framework for High-Resolution Spatiotemporal Temperature Forecasting in Apulia, Italy

Nouman IQBAL, University of Salento, Lecce, Italy

Author(s): Nouman Iqbal, Sandra De Iaco, Monica Palma

P1-3. AI-based quantification of European temperature and precipitation anomalies from the Euro-Atlantic weather regimes

Alessandro CAMILLETTI, Fondazione Bruno Kessler, Trento, Italy

Author(s): Alessandro Camilletti, Elena Tomasi, Gabriele Franch, Marco Cristoforetti

P1-4. Applying Generative AI Models to Climate Risk Assessment: a Weather Generator for Extreme Precipitation

Elena TOMASI, Fondazione Bruno Kessler, Trento, Italy

Author(s): Gabriele Franch, Elena Tomasi, Rishabh Wanjari, Uladzislau Azhel, Guido Rianna, Ilenia Manco, Paola Mercogliano, Marco Cristoforetti

Risk management, adaptation and social and economic transformations

P1-5. An integrated approach that includes ecosystem services in wildfire risk mitigation strategies: first results of CRITERIA project

Valentina BACCIU, CNR Istituto per la BioEconomia, Sassari, Italy

Author(s): Grazia Pellizzaro, Valentina Bacciu, Liliana Del Giudice, Carla Scarpa Donatella Spano, José Maria Costa-Saura Fabrizio Pedes, Costantino Sirca, Mario Cozzi, Severino Romano, Michele Salis

P1-6. Assessing the Quality of Urban Climate Adaptation Plans: Insights from 2205 Cities of the Global Covenant of Mayors

Filomena PIETRAPERTOSA, Institute of Methodologies for Environmental Analysis – National Research Council of Italy and NBFC, National Biodiversity Future Center, Palermo, Italy

Author(s): Filomena PIETRAPERTOSA, Aldo Trevisse, Diana Reckien, Monica Salvia, Vincent Vigué, Davide Geneletti, Byron Ioannou, Anna Krook-Riekkola, Paolo Bertoldi, Aoife M. Foley, Sonia De Gregorio Hurtado, Attila Buzási, Paris Fokaides, Klavdija Rižnar, Peter Eckersley, Oliver Heidrich, Efren Feliu, Luigi Santopietro, Hans Orru, Maria Szalmane Csete, Stelios Grafakos

P1-7. Climate Change Adaptation Mainstreaming: a brisk methodology to assess and improve the capability of public administrations to integrate adaptation into urban planning practices

Stella PENNINO, University of Naples Federico II, Napoli, Italy

Author(s): Stella Pennino, Emilio Lèbre La Rovere, Romano Fistola

P1-8. Climate Change Communication Campaign promoted by secondary school students

Lavinia LAITI, APPA, Provincia autonoma di Trento, Trento, Italy

Author(s): Roberto Barbiero, Lavinia Laiti, Laura Zumiani, Federica Pellegatti, Paulo Lima, Claudio Valenti, Sabrina Santorum, Laura Endrighi

P1-9. Climate Impacts on Arabica and Robusta Coffee Yields: Projections and Adaptation Strategies

Raniero DELLA PERUTA, Fondazione CMCC, Venice, Italy

Author(s): Raniero DELLA PERUTA, Valentina Mereu, Donatella Spano, Serena Marras, Antonio Trabucco

P1-10. Closing the gap between research and projects in climate change innovation in Europe

Francesca LAROSA, Royal Institute of Technology, Stockholm, Sweden

Author(s): Francesca Larosa, Marco Molinari, Panagiotis Varelas, Catalina Spataru, Jaroslav Mysiak

- P1-11. **Conceptualizing a multi-risk Bayesian Network model to identify nature-based management solutions to face water quality degradation in a changing climate**

Elena ALLEGRI, CMCC and Ca'Foscari University of Venice, Venice, Italy

Author(s): Elena Allegri, Francesc Maynou, Angelica Bianconi, Elisa Furlan, Hung Vuong Pham, Silvia de Juan, Andrea Critto, Antonio Marcomini

Changes in means and extremes: trends and dynamic at multiple scales

- P1-12. **Classification of the atmospheric circulation schemes associated with katabatic wind events in the Ross Sea (Antarctica)**

Lauro D'ESPOSITO, Parthenope University of Naples, Napoli, Italy

Author(s): Lauro D'ESPOSITO, Vincenzo Capozzi, Pasquale Castagno, Giannetta Fusco, Giorgio Budillon

- P1-13. **Climate analysis for health impact evaluation in urban areas**

Giulio SETTANTA, ISPRA, Rome, Italy

Author(s): Giulio Settanta, Piero Fraschetti, Francesca Lena, Walter Perconti, Emanuela Piervitali

- P1-14. **Climate Change Attribution of hydroclimatic hazards in the Emilia-Romagna region of Italy through multivariate analogues techniques**

Valerio LEMBO, CNR-ISAC, Bologna, Italy

Author(s): Valerio Lembo, Tommaso Alberti, Mireia Ginesta, Davide Faranda

- P1-15. **CLIMED web site to investigate climate change over Italy**

Goffredo DECIMI, RSE S.p.A., Milan, Italy

Author(s): Goffredo Decimi, Arianna Trevisiol, Paola Faggian

- P1-16. **CMIP6 downscaling in EURO-CORDEX**

Alejandro VICHOT-LLANO, Fondazione CMCC, Caserta, Italy

Author(s): ALEJANDRO VICHOT LLANO, Mario Raffa, Angelo Campanale, Gabriella Ceci, Marianna Adinolfi, Paola Mercogliano

Climate related impacts on natural and human systems across landscapes

- P1-17. **A Methodological Approach to Assess Expected Crops Distribution to Satisfy Future Food Demand**

Simone BELTRAMINO, Fondazione CMCC, Lecce, Italy

Author(s): Simone Beltramino, Riccardo Valentini, Maria Vincenza Chiriacò

- P1-18. **A methodological framework to assess the impact of climate change on marine sediment bottom stress and erosion processes: preliminary results from the area of Taranto (southern Italy)**

Angela RIZZO, University of Bari, Bari, Italy

Author(s): Diana De Padova, Giuliana Barbato, Giuseppe Mastronuzzi, Paola Mercogliano, Michele Mossa, ANGELA RIZZO

- P1-19. **Advancing land-sea interface multi-hazard cumulative impact assessment in the Valencian Community through AI-powered strategic foresight analysis.**

Gea GRASSI, Fondazione CMCC, Venice, Italy

Author(s): Gea Grassi, Federica Zennaro, Elisa Furlan, Andrea Critto

- P1-20. **Assessing the evolution of Urban Fire Risk in Rome**

Francesca FRASCA, Sapienza University of Rome, Rome, Italy

Author(s): Francesca Frasca, Serena Falasca, Annalisa Di Bernardino, Anna Maria Siani

- P1-21. **Assessing the suitability of pistachio as a diversification crop under climate change conditions in the Mediterranean regions: a literature review**

Bader IJAZ, University of Sassari, Sassari, Italy

Author(s): Bader Ijaz, Marta Debolini, Donatella Spano

- P1-22. **Assessing urban microclimate influences on air quality through integrated monitoring and dispersion modelling in Lecce (Southern Italy)**

Gianluca PAPPACCOGLI, University of Salento, Lecce, Italy

Author(s): Chiara Metrangolo, Adelaide Dinoi, Gianluca Pappaccogli, Riccardo Buccolieri

- P1-23. **Climate Services as Public Infrastructure: Lessons from European Research Partnerships**

Marcello PETITTA, Mathematics and Physics Department, Roma tre University, Roma, Italy

Author(s): Marcello Petitta, Sandro calmanti, Matteo De Felice

- P1-24. **Coast-AId: A custom AI application to assess coastal risk and resilience**

Maria Katherina DAL BARCO, Fondazione CMCC, Lecce, Italy

Author(s): MARIA KATHERINA DAL BARCO, Veronica Casartelli, Marcello Sanò, Sebastiano Vascon, Silvia Torresan, Andrea Critto

- P1-25. **Enhancing Water Quality Resilience: AI-Based Multi-Risk Assessment for Climate and Land Use Change Adaptation**

Diep Ngoc NGUYEN, Fondazione CMCC, Venice, Italy

Author(s): Diep Ngoc Nguyen, Jacopo Furlanetto, Silvia Torresan, Andrea Critto

Wed 22 Oct	15:00 – 15:30 (CEST) – Tea break	Palazzo di Città Sala del Confalone (1 st floor)
-------------------------	----------------------------------	---

Wed 22 Oct	15:30 – 17:15 (CEST) S1.1 – High-Resolution Climate Information: Methods and Uses Chair: Sandro Fiore, Università di Trento, Trento, Italy	Palazzo di Città Sala dei Marmi (1 st floor)
-------------------------	---	---

Assessing the role of large scale forcings as predictors for generating high-resolution atmospheric fields using a conditional generative adversarial neural network for downscaling

Ilenia MANCO, Fondazione CMCC, Caserta, Italy

Author(s): Ilenia Manco, Mario Raffa, Paola Mercogliano, Antonio Navarra

Km-scale modeling of the Northern Adriatic region

Marco REALE, National Institute of Oceanography and Applied Geophysics-OGS, Trieste, Italy

Author(s): M. Reale, G. Giuliani, F. Giordano, M. Garcia-Valdecasas Ojeda, L. Vargas-Heinz, E. Coppola, S. Querin, C. Solidoro, S. Salon

Analysis of Climate Trends in Italy Using High-Resolution Downscaled CMIP6 Models: Assessment of Climate Changes and Extremes for the Period 1985-2100

Giacomo Davide PAGLIARO, Agenzia ItaliaMeteo, Bologna, Italy

Author(s): Giacomo Davide Pagliaro, Deniel Pavone, Francesca Vittorioso, Giusy Fedele, Giuseppe Giugliano, Alfredo Reder, Paola Mercogliano

AI for high-resolution climate data: a deep learning Latent Diffusion Model to downscale climate projections

Elena TOMASI, Fondazione Bruno Kessler, Trento, Italy

Author(s): Elena Tomasi, Gabriele Franchi, Sandro Calmantini, Marco Cristoforetti

Toward High-Resolution Climate Projections: A Fast and Scalable Deep Learning Approach to Snow Depth

Alessandro DAMIANI, National Institute for Environmental Studies, Tsukuba, Japan

Author(s): Alessandro Damiani, Noriko N. Ishizaki, Sarah Feron, Raul R. Cordero

Enhancing Early-Warning Systems for Climate Extremes in Developing Countries Using Machine Learning Models and High-Resolution Datasets

Afshin SHAFEI, Università di Roma La Sapienza, Rome, Italy

Author(s): Afshin Shafei, Francesco Cioffi

Wed 22 Oct	15: 30 – 17:15 (CEST) S1.2 – Tools and Strategies for Climate Action Chair: Chiara Cagnazzo, ECMWF, Bonn (Germany)	Palazzo di Città Sala della Giunta (1 st floor)
-------------------------	---	--

GLORI4DE: Global to regional ICON for Destination Earth

Massimo GISONNI, CINECA, Bologna, Italy

Author(s): Massimo Gisonni, Gabriella Scipione, Fabio Di Sante, Gian Franco Marras, Angelo Campanale, Gabriella Ceci, Mario Raffa, Alfonso Ferrone, Chiara Marsigli, Virginia Poli, Thomas Gastaldo, Roland Potthast, Michael Krayer, Thorsten Steinert, Xu Xu, Thomas Geenen, Emanuele Danovaro

Critical considerations for extending potential climate and environmental benefits of regenerative agriculture while avoiding ‘greenwashing’

Peter MCKEOWN, University of Galway, Galway, Ireland

Author(s): Emily Rehberger, Noel Ndlovu, Mukund Naryan, Angela Maina, Clestha Noknale, Paul C. West, Charles Spillane, Peter C. McKeown

Power Play: Balancing Efficiency and Protection in Fixed versus Variable Electricity Pricing

Cristina CATTANEO, Fondazione CMCC, Milan, Italy

Author(s): Jacopo Bonan, Cristina Cattaneo, Giovanna d'Adda, Jacopo Lunghi, Massimo Tavoni

Prov4WFs: a toolbox for tracking provenance in workflow management systems

Ludovica SACCO, University of Trento, Trento, Italy

Author(s): Ludovica Sacco, Carolina Sopranzetti, Sandro Luigi Fiore

Fondazione Cariplo's commitment on local climate transition strategies

Federico BEFFA, Fondazione Cariplo, Milan, Italy

Author(s): Federico Beffa, Paolo Siccardi

High resolution analysis of SUHI dynamics in Milan under different climate conditions using ECOSTRESS data

Antonio ESPOSITO, University of Salento, Lecce, Italy

Author(s): Antonio Esposito, Gianluca Pappaccogli, Piero Lionello, and Riccardo Buccolieri

Wed 22 Oct	SIDE EVENT (in Italian) 18:00 – 19:00 (CEST) - Clima da leggere	Museo Diocesano "San Matteo"
-------------------------	--	------------------------------

CLIMA DA LEGGERE - Presentazione del volume:

La giostra del tempo senza tempo. I cambiamenti climatici e il patto tra le generazioni

Autore: Carlo Cacciamani, direttore dell'Agenzia ItaliaMeteo, climatologo ed esperto di comunicazione scientifica

Moderatore: Cinzia Ugatti - giornalista professionista e attrice

Abstract: I cambiamenti climatici, già evidenti e in accelerazione, hanno impatti significativi su ecosistemi, salute, attività produttive e biodiversità. L'aumento delle temperature continuerà se non verranno ridotte drasticamente le emissioni di gas serra. Senza interventi, nei prossimi decenni gli effetti saranno sempre più gravi, rendendo il futuro delle nuove generazioni in un mondo meno ospitale.

📍 Museo Diocesano "San Matteo", Largo Plebiscito 12, Salerno

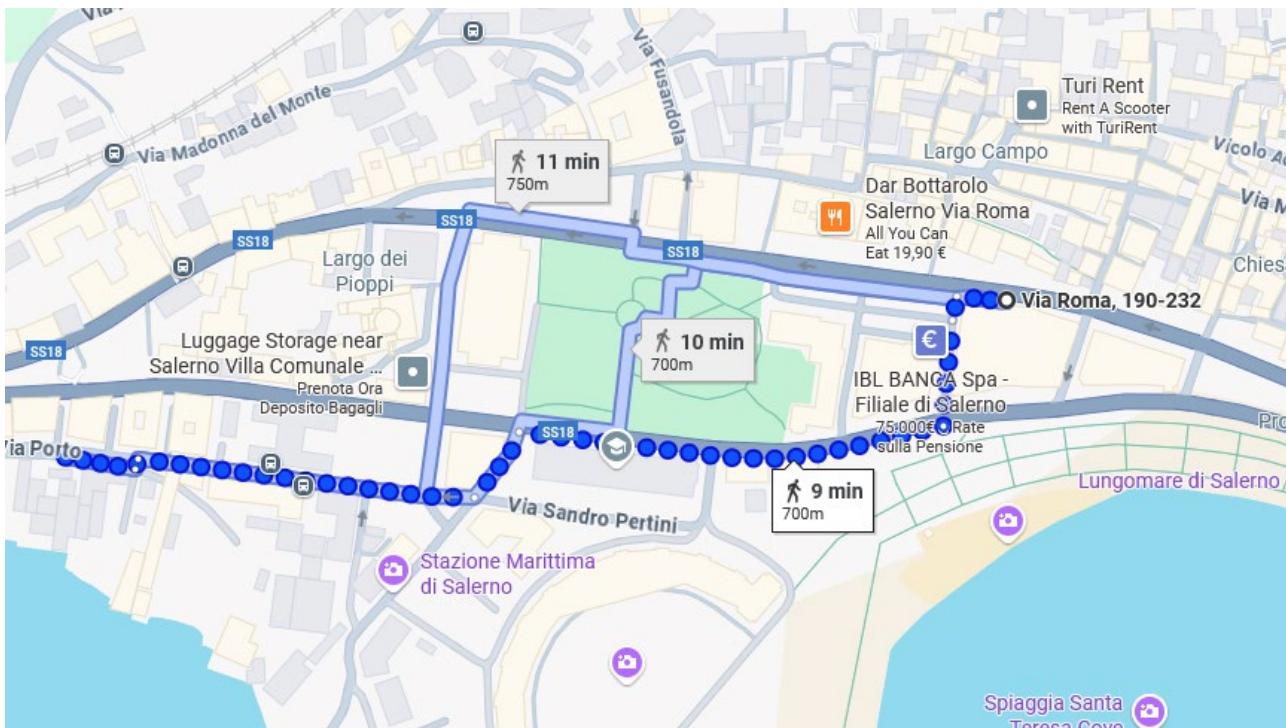

L'evento è **GRATUITO** e aperto sia ai partecipanti della conferenza scientifica SISC che alla cittadinanza. Si chiede gentilmente di confermare la presenza compilando il modulo di iscrizione al singolo evento.

Wed 22 Oct	20:00 – Social dinner
-------------------------	-----------------------

The Social dinner will be held at:

📍 Circolo Canottieri Irno, Via Porto 41, Salerno SA

Day 2 | Thursday 23 October 2025

Thu
23
Oct

SIDE EVENT
07:00 – 08:00 (CEST) - 5k at dawn on Salerno seafront

A non-competitive walk/run along the Salerno seafront.

If you are interested in participating, please fill out the form below!

We will create a **WhatsApp group** to help coordinate with each other. Please note: We will ask you for an additional confirmation before adding you to the WhatsApp group.

Thu
23
Oct

08:45 – 09:00 (CEST) - Registration of participants

Palazzo di Città
Hallway
(1st floor)

Thu
23
Oct

09:00 – 10:30 (CEST) - In italiano

TAVOLA ROTONDA - Il valore strategico del PNRR per la ricerca sul cambiamento climatico in Italia ed in Europa

Chair: Valeria D'Ambrosio, Università di Napoli Federico II, Esperta MUR per la Mission «Adaptation to Climate Change, including Societal Transformation» (Horizon Europe)

Palazzo di Città
Sala dei Marmi
(1st floor)
& streaming

Grazie a specifiche progettualità, il PNRR si è rivelato un volano per l'avanzamento della ricerca sul cambiamento climatico in Italia e in Europa. Questa tavola rotonda riunirà alcuni dei principali progetti finanziati, che hanno incluso le scienze del clima tra le loro attività, per condividere come tali fondi abbiano favorito innovazione scientifica e tecnologica. Attraverso un confronto aperto, saranno messi in luce punti di forza, criticità e prospettive future, delineando il valore strategico di questi investimenti e il loro impatto sulla società.

Intervengono:

- Centro Nazionale per la Biodiversità (NBFC) – Maria Chiara Pastore, Politecnico di Milano, Milano, Italy
- Centro Nazionale HPC, Big Data e Quantum Computing (ICSC) – Silvio Gualdi, Fondazione CMCC, Bologna, Italy
- Partenariato Esteso RETURN – Andrea Prota e Maria Polese, Università Federico II Napoli, Napoli, Italy

Thu
23
Oct

09:00 – 10:30 (CEST)
Free networking opportunities for non-Italian speakers

Palazzo di Città
Sala della Giunta
(1st floor)

SISC2025 INNOVATION IN CLIMATE RESEARCH FOR SOCIETAL TRANSFORMATION

SISC 13th Annual Conference - Salerno, 22-24 October 2025

Thu 23 Oct	10:30 – 11:00 (CEST) Climate shelter initiatives in Europe and Italy Chair: Paola Mercogliano, Bologna, Italy	Palazzo di Città Sala dei Marmi (1 st floor)
-------------------------	--	---

Presenter(s): *Enrica DE CIAN* and *Catarina MIDOES*, Ca' Foscari University and Fondazione CMCC, Italy

Europe and Italy are climate change hotspots where, despite the numerous adaptation interventions implemented since the 2003 heatwave, extreme heat is still causing a high number of fatalities. Cooling center networks are often part of climate change adaptation plans at the local level. Yet, little evidence exists on whether they attract the target populations and whether they ultimately change people's perceptions and behaviours and reduce heat-related morbidity and mortality. Moreover, the definition of cooling shelter in itself is not consistent across initiatives. What are their objectives? How do they relate to local policies and communities? What are the main challenges faced in setting up these centers? In this presentation we address these questions, illustrated by a pilot study case we developed in Venice during the summer of 2025. Through surveys and interviews, we firstly describe the perspectives about cooling centers of both users and managers. We then provide preliminary results on whether this pilot project of cooling centers influenced self-perceived vulnerability to heat and/or protective behaviours. We conclude with our plan to scale-up the study, conducting large surveys and field studies, including randomized interventions, to quantitatively assess the impact of cooling centers.

At the intersection of Big data, HPC and AI for Climate Science

P2-1. Exploring machine-learning capabilities as a weather generator over the Italian Peninsula

Leonardo ARAGÃO, Fondazione CMCC, Bologna, Italy

Author(s): Leonardo Aragão, Silvio Gualdi

P2-2. Leveraging Graph Neural Networks for Enhancing Posidonia Oceanica Conservation Across Mediterranean Sea: Tackling Climate Change and Human Impact

Angelica BIANCONI, Fondazione CMCC, Venice, Italy

Author(s): Angelica Bianconi, Sebastiano Vascon, Elisa Furlan and Andrea Critto

P2-3. Modelling climate impacts on biodiversity with deep neural networks

Carlos RODRÍGUEZ-PARDO, Politecnico di Milano, Milan, Italy

Author(s): Marta Mastropietro, Carlos Rodriguez-Pardo, Cindy Azuero Pedraza, Massimo Tavoni

P2-4. Optimizing climate data management and access: enhancing the CMCC Data Delivery System

Gabriele TRAMONTE, Fondazione CMCC, Lecce, Italy

Author(s): Gabriele Tramonte, Donatello Elia, Valentina Scardigno, Mario Raffa, Massimo Muraro, Paola Mercogliano, Paola Nassisi

Risk management, adaptation and social and economic transformations

P2-5. Food Hubs as catalysts for sustainable Food Systems: insights from the SWITCH project

Letizia ANDRIANI, Fondazione CMCC, Lecce, Italy

Author(s): Letizia Andriani, Chiara Trozzo, Kristel Polhuis, Laura Bouwman, Maria Vincenza Chiriacò

P2-6. From climate risk assessment to adaptation: a transdisciplinary framework for co-designing strategic adaptation measures in South Tyrol

Fabio CARNELLI, Eurac Research, Bolzano, Italy

Author(s): Fabio Carnelli, Giacomo Bertoldi, Alice Crespi, Lydia Pedoth, Massimiliano Pittore, Michael Pörnbacher, Kathrin Renner, Marc Zebisch

P2-7. Identifying and managing drought as a governance risk: emergency water-use restrictions, seeds of conflicts, and sentences

Francesca MUNEROL, CIMA Foundation, Savona, Italy

Author(s): Francesca Munerol, Margherita Andreaggi, Francesco Avanzi, Edoardo Cremonese, Marco Altamura

P2-8. Intersectional Feminist Analysis of Italy's National Adaptation Plan: Addressing Gendered Climate Vulnerabilities and Regional Disparities

Berfin Tutku OZCAN, School of Advanced Studies Sant'Anna, Pisa, Italy

Author(s): Berfin Tutku Ozcan

P2-9. Linking Temperature Extremes and Labour Productivity in Integrated Assessment Models: a new modelling framework in AD-WITCH

Gabriele MANSI, Fondazione CMCC, Venice, Italy

Author(s): Gabriele Mansi, Francesco Colelli

P2-10. Mainstreaming Climate Change Adaptation Policies into Sub-national Level Governance

Aurora NURCE, Fondazione Lombardia per l'Ambiente, Milan, Italy

Author(s): Aurora Nurce, Mita Lapi, Gian Luca Gurrieri, Fabrizio Piccarolo, Monica Bernardi, Domenico Vito

P2-11. Mitigation strategies can alleviate power system vulnerability to climate change and extreme weather: a case study on the Italian grid

Alice DI BELLA, Politecnico di Milano, Milan, Italy

Author(s): Alice Di Bella, Francesco Pietro Colelli

Changes in means and extremes: trends and dynamic at multiple scales

P2-12. Evaluating extreme precipitation events across different timescales: A comparison of high-resolution modelling and observed data in Emilia-Romagna

Piero LIONELLO, University of Salento, Lecce, Italy

Author(s): Oliver S. Carlo, Giusy Fedele, Silvio Gualdi, Paola Mercogliano, Piero Lionello

P2-13. Investigating SST's role in Mediterranean tornado dynamics

Elenio AVOLIO, CNR-ISAC, Lecce, Italy

Author(s): Elenio Avolio, Claudia Fanelli, Andrea Pisano, Mario Marcello Miglietta

P2-14. Multi-scale Assessment of Temperature Dynamics and Heat Wave Trends with High-Resolution Climate Data

Stefania OLIVA, Fondazione CMCC, Caserta, Italy

Author(s): S. Oliva, M. Raffa, M. Adinolfi, A. Campanale, A. Reder, P. Mercogliano

P2-15. Statistical Downscaling over Italy using EQM: CMIP6 Climate Projections and related Key Climate Indicators for the 1985-2100 Period

Giusy FEDELE, Fondazione CMCC, Caserta, Italy

Author(s): Giusy Fedele, Giuseppe Giugliano, Alfredo Reder and Paola Mercogliano

Climate related impacts on natural and human systems across landscapes

P2-16. Exploring climate projections uncertainty propagation in the integration of adaptation strategies into practices for infrastructure design and maintenance

Mattia SCALAS, Fondazione CMCC, Caserta, Italy

Author(s): Mattia SCALAS, Alessandro Pugliese, Luz Adriana Gomez Mogollon, Giuliana Barbato, Paola Mercogliano, Guido Rianna, Alfredo Reder

P2-17. **Exploring Drivers of Forest Microclimates in Central Italy**

Autumn MANNSFELD, Fondazione CMCC, Viterbo, Italy

Author(s): Autumn Mannsfeld, Nafeesa Samad, Maria Vincenza Chiriacò

P2-18. **Extreme Temperatures Risk: the case study of Turin in the Horizon Europe SDGs-EYES project**

Alessandro PUGLIESE, Fondazione CMCC, Caserta, Italy

Author(s): ALESSANDRO PUGLIESE, Marta Ellena, Mattia Scalas, Giuliana Barbato, Alfredo Reder, Alessandro D'Anca, Jishnu Jeevan, Paola Mercogliano, Nicolás Zengarini, Teresa Spadea, Elena Strippoli, Giulia Melis, Eduardo Di Gangi

P2-19. **Future Health Impacts of Heatwaves in Italy Considering Climate Change Scenarios**

Francesca DE' DONATO, Dipartimento di epidemiologia ASL ROMA 1, SSR Lazio, Rome, Italy

Author(s): Francesca de' Donato, Alessandro Pugliese, Paola Mercogliano, Giuliana Barbato, Manuela De Sario, Chiara Di Blasi, Paola Michelozzi

P2-20. **Global warming influence on shallow landslide events in northwestern Italy**

Christian RONCHI, Arpa Piemonte, Turin, Italy

Author(s): Davide Tiranti, Valentina Botto, Elisa Brussolo, Christian Ronchi

P2-21. **Impact of precipitation anomalies on viticulture resilience and grape production: the case study of Molise, Italy**

Gianluca PAPPACCOGLI, University of Salento, Lecce, Italy

Author(s): Gianluca Pappacogli, Mirko Sodini, Francesco Landolfo, Giuseppe Rossetti, Giuliana Maddalena, Silvia Toffolatti, Filippo De Curtis, Mauro Confalonieri, Piero Lionello, Laura Rustioni

P2-22. **Integrating Remote Sensing and Epidemiological Modelling to Assess the impacts of heat on urban health population**

Domenico D'AUSILIO, Parthenope University of Naples, Napoli, Italy

Author(s): Domenico D'Ausilio, Davide Morale, Massimiliano Cerciello, Marta Ellena, Paola Mercogliano, Claudio Parente, Alessandro Pugliese, Giuliana Barbato, Alfredo Reder

Mitigation technologies for ambitious climate targets

P2-23. **Future of residential electricity demand in Saudi Arabia and the role of energy efficiency in 2060's net zero pledge**

Mohammad ALDUBYAN, King Abdullah Petroleum Studies and Research Center, Riyadh, Saudi Arabia

Author(s): Mohammad Aldubyan

P2-24. **Geospatial AI and geospatial big data analytics to decarbonise consumer level emissions**

Sara GIAROLA, Politecnico di Milano, Milan, Italy

Author(s): DIEGO MOYA, Sara Giarola, Adam Hawkes

P2-25. **Modeling Methane Emissions from Wetlands: projections and impacts for climate policy**

Cindy AZUERO PEDRAZA, Fondazione CMCC, Milan, Italy

Author(s): Carlos Rodriguez-Pardo, Cindy Azuero Pedraza, Lara Aleluia, Laurent Drouet

(1st floor)

Fri
24
Oct

11:15 – 12:00 (CEST) - Claudia Pasquero's Talk

Local and remote effects on the mid latitude climatic response to anthropogenic forcing

Chair: Marcello Petitta, Roma Tre University, Rome, Italy

Palazzo di Città
Sala dei Marmi
(1st floor)

Local and remote effects on the mid latitude climatic response to anthropogenic forcing

The warming observed on the Earth over the last decades is not homogeneous: different characteristics of the surface are responsible for a faster temperature rise over continents than over oceans, for a strong polar amplification, and for an elevation-dependent climate change.

In this talk, atmospheric thermodynamic and dynamic processes associated with differential warming, active locally or remotely, will be presented. In particular, the effects of water availability contrasts in soils and oceans on mid latitude climate and meteorological variability, including the occurrence of winter cold spells, heavy precipitation, and droughts, will be discussed.

Claudia Pasquero is Associate Professor in Oceanography, Meteorology and Climatology at the University of Milano – Bicocca, where she studies interactions between oceans and climate. Recently, her research has focused on the dynamics of extreme meteo-climatic events, including tropical cyclones, mid-latitude storms, sudden stratospheric warming events, heavy rainfalls. Pasquero is part of the ESA Earth Explorer X "Harmony" Mission Advisory Group, and she leads related science projects on air-sea interactions. Recently, she has been an invited fellow at Ecole Normale Supérieure (Paris) and at Harvard University (USA). She has an active role in the communication of climate science to society (including writing popularization books and being the scientific director of the Planetaria festival).

Oct

12:00 – 13:00 (CEST)

Poster session 3

Palazzo di Città
Hallway
(1st floor)

At the intersection of Big data, HPC and AI for Climate Science

P3-1. RHEA-DAPT: Transforming decision making with AI tool for climate adaptation planning

Maria Katherina DAL BARCO, Fondazione CMCC, Venice, Italy

Author(s): Favilli Fabio, Poddar Debashmita, Chiarello Federico, Dal Barco Maria Katherina, Biancardi Aleu Rebeca, Furlan Elisa

P3-2. Severe weather monitoring: Convolutional Neural Networks and Satellite data for detection of lightning activities over Italy

Otavio MEDEIROS FEITOSA, Fondazione CMCC, Caserta, Italy

Author(s): Otavio Feitosa, Paolo Francesco Duminuco, Ilenia Manco, Alessandro Bonfiglio, Giuseppe Giugliano, Giusy Fedele, Davide Morale, Gabriella Ceci, Giuliana Barbato, Paola Mercogliano.

P3-3. TreeTalkers data for sustainable vineyards: visualizing sapflow insights and soil management effects on grape physiology

Alessandra NUZZO, Fondazione CMCC, Lecce, Italy

Author(s): Alessandra Nuzzo, Valentina Scardigno, Simone Beltramino, Maria Vincenza Chiriacò, Gabriele Pizzileo

P3-4. Using Wasserstein distance for clustering of climatological data

Regina CASTROVILLI, University of Salento, Lecce, Italy

Author(s): Alessia Benevento, Regina Castrovilli, Fabrizio Durante, Daniela Gallo, Gianfausto Salvadori

Risk management, adaptation and social and economic transformations

P3-5. Modelling systemic risk and resilience through networks: the AGILE case study in Venice

Davide Mauro FERRARIO, Fondazione CMCC, Venice, Italy

Author(s): Margherita Maraschini; Samuele Casagrande, Davide Mauro Ferrario, Andrea Critto, Silvia Torresan

P3-6. Nature-Based Solutions and Risk Assessment for Enhanced Climate Change Adaptation in Coastal Areas

Fabienne HORNEMAN, Fondazione CMCC, Venice, Italy

Author(s): Fabienne Horneman, Ignacio Gatti, Elisa Furlan, Andrea Critto, Silvia Torresan

P3-7. Resilience-oriented policy guidelines for mountain snow tourism destinations and communities.

Andrea OMIZZOLO, Eurac Research, Bolzano, Italy

Author(s): Andrea Omizzolo, Philipp Corradini, Agnese Moroni

P3-8. Strengthening the resilience regarding CC-induced ecologic & socioeconomic effects in snow mountain destinations.

Andrea OMIZZOLO, Eurac Research, Bolzano, Italy

Author(s): Andrea Omizzolo, Philipp Corradini, Agnese Moroni

P3-9. Summer 2025 in Piedmont: heatwaves and the new APP

Agnese Maria COLIZZI, Arpa Piemonte, Torino, Italy

Author(s): Agnese Maria Colizzi, Barbara Cagnazzi, Chiara De Luigi, Manuela Bernardi, Cecilia Scarinzi, Cristiana Ivaldi

P3-10. Toward integrated and fire-smart land management in Sardinia: combining modelling and participatory approaches within a disaster risk reduction framework

Valentina BACCIU, Institute of BioEconomy, National Research Council, Sassari, Italy

Author(s): Valentina BACCIU, Alessio Menini, Grazia Pellizzaro, Michela Bazzoni, Josè Costa Saura, Bachisio Arca, Pierpaolo Duce, Donatella Spano, Costantino Sirca

P3-11. What's in the Mud?! Community-led Biogeochemical Assessments of Unmonitored River Tributaries in New York's Disadvantaged Communities for Ecosystem Restoration and Accelerating Alternative Energy Solutions

Brianna Elizabeth MIRANDA, Haverstraw Estuary Field Station, Haverstraw, New York, United States of America

Author(s): Brianna E. Miranda, Keith Tidball, Anna Davidson, Jose A. Andres, Ashley Morris, Chris Bowser, Jeffry Pecctraca, Emmet Sutton

Changes in means and extremes: trends and dynamic at multiple scales

P3-12. The X-RISK-CC webGIS of alpine-wide climate extremes

Piero CAMPALANI, Eurac Research, Bozen/Bolzano, Italy

Author(s): Piero Campalani, Alice Crespi, Elena Maines, Sebastian Lehner, Živa Vlahović, Maja Žun, Marc Zebisch

P3-13. Thermodynamic and Dynamic Contribution in Precipitation Extremes over Europe and the Mediterranean Basin

Lisa BERNINI, CIMA Foundation, Savona, Italy

Author(s): Lisa Bernini, Stephan Pfahl, Antonio Parodi, Claudia Pasquero

P3-14. Time and space variability of tornadoes occurrence: an empirical approach

Aqsa MUHAMMADI, University of Salento, Lecce, Italy

Author(s): Aqsa Muhammadi, Roberto Ingrosso, Gianfausto Salvadori, Piero Lionello

P3-15. Uncertainties in high-resolution extreme precipitation scenarios over Italy from dynamical and statistical modeling

Sandro CALMANTI, ENEA, Rome, Italy

Author(s): Sandro Calmanti, Giusy Fedele, Paolo Lanteri, Elena Tomasi, Gabriele Franch, Simona Bordoni, Paola Mercogliano

Climate related impacts on natural and human systems across landscapes

P3-16. Interpretability of Machine Learning Models to Analyse the Correlation Between Environmental Features and Respiratory Admissions in the Emergency Room

Vito TELESCA, University of Basilicata, Potenza, Italy

Author(s): Vito Telesca, Marica Rondinone

P3-17. Linking climate change impacts on Net Primary Production in the Atlantic and mid-century global macroeconomic scenarios

Gabriele STANDARDI, University of Milan, Milan, Italy

Author(s): Gabriele STANDARDI, Serena Zunino, Simone Libralato, Francesco Bosello, Elisa Delpiazzo, Ramon Key, Sebastian Villasante, Katie Longo, Marco Reale, Donata Canu, Gillian Ainsworth, Jacopo Feàs, Bruno Buongiorno Nardelli, Olivier Jaillon, Lynn Shannon

P3-18. **Modelling use and non use values of ecosystems in general equilibrium analysis**

Gabriele MANSI, Fondazione CMCC, Venice, Italy
Author(s): Gabriele Mansi, Francesco Bosello

P3-19. **Multi-hazard hot and dry events in the Adige River basin: combining AI and Earth Observation to advance multi-risk assessment**

Jacopo FURLANETTO, Fondazione CMCC, Venice, Italy
Author(s): Jacopo Furlanetto, Marinella Masina, Davide Mauro Ferrario, Edoardo Albergo, Heloisa Labella Fonseca, Margherita Maraschini, Silvia Torresan, Andrea Critto

P3-20. **Shifting Bioclimatic Conditions through Machine Learning High Resolution Global Environmental Stratification**

Antonio TRABUCCO, Foundation CMCC, Sassari, ITALY
Author(s): Robert J. Zomer, Marc J. Metzger, Jianchu Xu(e), Antonio Trabucco

P3-21. **Species-Specific Responses of Stem Radial Growth and Water Transport to Flash Drought in a Mediterranean Forest: A Case Study from central Italy**

Nafeesa SAMAD, Fondazione CMCC, Viterbo, Italy
Author(s): Nafeesa SAMAD, Autumn Mannsfeld, Maria Vincenza Chiriacò

P3-22. **Too hot or too cold: Effect of weather shock on self-reported mental health outcomes in South Africa**

Odunola Alexander OLADEJI, Gran Sasso Science Institute, L'Aquila, Italy
Author(s): Odunola A. Oladeji

P3-23. **Vine grapes productivity and weather fluctuations: evidence for Italian regions (2006-2022)**

Claudio MANCUSO, Parthenope University of Naples, Napoli, Italy
Author(s): Claudio Mancuso, Giulio Paolo Agnusdei, Marco De Simone, Elisabetta Marzano, Pier Paolo Miglietta

P3-24. **Water-Energy-Food-Ecosystem Nexus approach for integrated system assessment in Sardinia region**

Muhammad Faizan ASLAM, Fondazione CMCC and National Biodiversity Future Center S.c.a.r.l., (NBFC), Italy
Author(s): Muhammad Faizan ASLAM, Sara Masia, Marta Debolini, Janez Susnik, Andrea Borgo, Simone Mereu, Antonio Trabucco

Fri 24 Oct	13:00 – 14:00 (CEST) – Lunch	Palazzo di Città Sala del Confalone (1 st floor)

CLIMA DA LEGGERE - Presentazione del volume:

Le parole giuste. Glossario ecologista (Fandango Libri)

Curatore: A Sud – Centro di ricerca e azione attivo su ambiente, clima e giustizia sociale

Intervengono:

- Marica di Pierri, giornalista, ricercatrice, divulgatrice, portavoce di A Sud
- Paola Mercogliano, presidente della SISC e autore di una voce del glossario relativa al cambiamento climatico

Modera: Arturo Iannelli, Presidente della Commissione Ambiente del Comune di Salerno

Abstract: Il glossario raccoglie contributi provenienti dal mondo della scienza, della divulgazione, dell'attivismo, dell'informazione e dell'accademia. Il risultato è al tempo stesso una bussola per orientarsi e una cassetta degli attrezzi per approfondire teoria e pratica: dalle nozioni e concetti chiave fino alle sigle e ai vocaboli indispensabili per comprendere le questioni ambientali nelle loro molteplici sfumature.

📍 iMorticelli, ex chiesa di San Sebastiano del Monte dei Morti, Largo Plebiscito, Salerno

L'evento è GRATUITO e aperto sia ai partecipanti della conferenza scientifica SISC che alla cittadinanza. Si chiede gentilmente di confermare la presenza compilando il modulo di iscrizione al singolo evento.

SIDE EVENT (in Italian)

10:00 – 12:00 (CEST) - Clima e Cultura: esplorare il clima oltre la scienza

iMorticelli

Clima e Cultura: esplorare il clima oltre la scienza

Un incontro che intreccia scienza, arte e antropologia per esplorare nuove narrazioni sul clima e stimolare un dialogo culturale aperto con la comunità.

Intervengono:

- **Andrea Mattiello:** storico dell'arte e ricercatore tra Oxford e NABA. Cura la rubrica So.N.Ar. – Società, natura, arti su Equilibri Magazine, FEEM, dove esplora l'intersezione tra arti visive, crisi climatica e trasformazioni culturali.
- **Elisabetta Dall'Ò:** antropologa ambientale. Professoressa del corso di " Modelli, Evidenze e Percezione dei cambiamenti climatico" al Politecnico di Torino.
- **Ludovica La Rocca:** architetta, co-fondatrice di Blam, collettivo di architette che si occupa di rigenerazione urbana e innovazione sociale, con particolare attenzione al riuso adattivo del patrimonio culturale.
- **Giulio Boccaletti:** direttore scientifico del CMCC, esperto di sicurezza ambientale e risorse naturali. È saggista, imprenditore e senior executive con esperienza sia nel settore privato che no profit.

Modera: Paola Mercogliano, Presidente SISC e Principal Scientist del CMCC

SIDE EVENT (in Italian)

18:00 – 19:00 (CEST) - Clima da leggere

Giardino della Minerva

CLIMA DA LEGGERE - Presentazione del volume:

Il futuro della natura (edito da Mondadori)

Autore: Giulio Boccaletti, Scienziato e autore di saggi, esperto di sicurezza ambiente e gestione delle risorse naturali

Moderatore: Carla Errico, responsabile della redazione di Salerno de "Il Mattino"

Abstract: In un'epoca di guerre, pandemie e fughe verso Marte, Il futuro della natura spiega come comportarci sulla Terra, da custodi della nostra casa. Il pianeta sta cambiando. Le narrazioni apocalittiche non servono. Dobbiamo, invece, affrontare ciò che ci aspetta. Raccontare il futuro della natura, in fondo, significa raccontare il futuro di tutti noi.

📍 Giardino della Minerva, vicolo Ferrante Sanseverino 1, Salerno

L'evento è GRATUITO e aperto sia ai partecipanti della conferenza scientifica SISC che alla cittadinanza. Si chiede gentilmente di confermare la presenza compilando il modulo di iscrizione al singolo evento.

List of Participants

(update: 17 Sep 2025)

Arianna **ACIERTNO**, Fondazione CMCC, Italy
Mohammad **ALDUBYAN**, KAPSARC, Saudi Arabia
Elena **ALLEGRI**, Fondazione CMCC, Italy
Margherita **ANDREAGGI**, Fondazione CIMA, Italy
Letizia **ANDRIANI**, Fondazione CMCC, Italy
Carmela **APREDA**, Fondazione CMCC, Italy
Leonardo **ARAGÃO**, Fondazione CMCC, Italy
Muhammad Faizan **ASLAM**, Fondazione CMCC, Italy
Elenio **AVOLIO**, CNR-ISAC, Italy
Cindy **AZUERO PEDRAZA**, Fondazione CMCC, Italy
Valentina **BACCIU**, CNR, Italy
Roberto **BARBIERO**, APPA - Provincia autonoma di Trento, Italy
Federico **BEFFA**, Fondazione Cariplo, Italy
Simone **BELTRAMINO**, Fondazione CMCC, Italy
Lisa **BERNINI**, CIMA Foundation, Italy
Carlo Alessandro **BERTETTI**, Studio Progetto Ambiente Srl, Italy
Angelica **BIANCONI**, Fondazione CMCC, Italy
Andrea **BIGANO**, Fondazione CMCC, Italy
Federica **BORILE**, University of Bologna, Italy
Rosa **CAFARO**, University of Naples Federico II, Italy
Barbara **CAGNAZZI**, ARPA Piemonte, Italy
Sandro **CALMANTI**, ENEA, Italy
Riccardo **CAMBONI**, University of Padova, Italy
Alessandro **CAMILLETTI**, Fondazione Bruno Kessler, Italy
Piero **CAMPALANI**, Eurac Research, Italy
ANGELO CAMPANALE, Fondazione CMCC, Italy
Osman Hakan **CAN**, Universitat de Barcelona, Spain
Vincenzo **CAPOZZI**, Department of Science and Technology, University of Naples "Parthenope", Italy
Gianluca **CAPRI**, Agenzia del Demanio, Italy
Antonio **CARBONE**, Sogesid spa, Italy
Fabio **CARNELLI**, Eurac Research, Italy
Regina **CASTROVILLI**, University of Salento, Italy
Cristina **CATTANEO**, Fondazione CMCC, Italy
Luca **CETARA**, Eurac research, Italy
Marco **CHERICONI**, IUSS Pavia, Italy

Adam **CHORYŃSKI**, Poznań University of Life Sciences, Poland
Maria Grazia **CITO**, Università degli Studi di Bari "Aldo Moro", Dipartimento di Economia, Management e Diritto d'Impresa, Italy
Agnese Maria **COLIZZI**, ARPA Piemonte, Italy
Federico **CORNACCHIA**, Fondazione Eni Enrico Mattei and Ca' Foscari University of Venice, Italy
Maria Katherina **DAL BARCO**, Fondazione CMCC, Italy
Alessandro **DAMIANI**, National Institute for Environmental Studies, Japan
Goffredo **DECIMI**, RSE S.p.A., Italy
Francesca **DE' DONATO**, Department of Epidemiology, Lazio regional health Service, Italy
Raniero **DELLA PERUTA**, Fondazione CMCC, Italy
Lauro **D'ESPOSITO**, University "Ca' Foscari" of Venice / University "Parthenope" of Naples, Italy
Alice **DI BELLA**, Politecnico di Milano, Italy
Luigi **DI MICCO**, ISPRA, Italy
Fabio **EBOLI**, ENEA, Italy
Antonio **ESPOSITO**, University of Salento, Italy
Federico **FABIANO**, CNR-ISAC, Italy
Paola **FAGGIAN**, RSE S.p.A., Italy
Giusy **FEDELE**, Fondazione CMCC, Italy
David Mauro **FERRARIO**, Fondazione CMCC, Italy
Alfonso **FERRONE**, CINECA, Italy
Filippo **FRASCHINI**, CIMA Foundation, Italy
Jacopo **FURLANETTO**, Fondazione CMCC, Italy
Valentina **GALLINA**, ARPA FVG, Italy
Martina **GAMBARO**, SISC and Fondazione CMCC, Italy
Sara **GIAROLA**, Polytechnic of Milan, Italy
Francesca **GIORDANO**, ISPRA, Italy
Massimo **GISONNI**, CINECA, Italy
Fabienne **HORNEMAN**, Fondazione CMCC, Italy
Bader **IJAZ**, University of Sassari, Italy
Roberto **INGROSSO**, CNR-ISAC, Italy
Doroteaciro **IOVINO**, Fondazione CMCC, Italy
Nouman **IQBAL**, Università del Salento, Italy
Ivan **KANCHEV**, International Society for Ecological Economics - ISEE, Republic of North Macedonia

SISC2025 INNOVATION IN CLIMATE RESEARCH FOR SOCIETAL TRANSFORMATION

SISC 13th Annual Conference - Salerno, 22-24 October 2025

Lavinia **LAITI**, APPA - Provincia autonoma di Trento, Italy
Mita **LAPI**, Fondazione Lombardia per l'Ambiente, Italy
Francesca **LAROSA**, Royal Institute of Technology - KTH, Sweden
Valerio **LEMBO**, CNR-ISAC, Italy
Antonino **LIBRO**, Regione Emilia-Romagna, Italy
